

# PungentFunk Utilities - Snapshot Audit and Script Index

Generated from the latest uploaded PungentFunkUtilities.zip. This snapshot supersedes the earlier 97-script feature inventory and the 123-script snapshot PDF.

## 1. Snapshot Summary

| Metric                            | Current value |
|-----------------------------------|---------------|
| C# scripts                        | 181           |
| Editor scripts                    | 139           |
| Runtime/shared scripts            | 42            |
| Total C# lines                    | 48,119        |
| Assembly definitions              | 2             |
| Files with namespace declarations | 181 / 181     |
| MenuItem declarations             | 70            |
| CreateAssetMenu declarations      | 12            |
| Central registry entries          | 27            |

## Headline findings

- Major growth: 181 scripts, up from the previously uploaded 97-script feature inventory and 123-script snapshot.
- Namespace hardening is complete in this archive: 181/181 scripts declare namespaces.
- Runtime/editor asmdefs are present and no runtime/shared scripts with direct UnityEditor references were detected by text scan.
- Developer Mode, theme preset source authoring, minimized utilities, documentation links, Notes & Roadmap, token database/bindings, Palette panel split, Audio scanner split, and Asset Placement surface-brush/repair/path helpers are now present.
- Remaining blockers are per-lab/bridge asmdefs, package manifests, scanner migration, large windows, legacy menu curation, TMP version defines/bridge automation, and visual QA for minimizer/global skin features.

## 2. Lab Snapshot

| Lab                           | Files | Editor | Runtime/shared | Lines  |
|-------------------------------|-------|--------|----------------|--------|
| Core / Architecture           | 46    | 46     | 0              | 14,120 |
| Debug Lab                     | 12    | 9      | 3              | 3,863  |
| Asset Placement Lab           | 18    | 9      | 9              | 2,698  |
| Scene Workflow Lab            | 12    | 9      | 3              | 4,469  |
| Colour Lab                    | 21    | 12     | 9              | 3,916  |
| Texture Lab                   | 5     | 3      | 2              | 1,924  |
| Audio Lab                     | 23    | 9      | 14             | 4,917  |
| Asset Preview & Export Lab    | 4     | 4      | 0              | 1,498  |
| Project Audit & Authoring Lab | 35    | 35     | 0              | 8,986  |
| Content Generation Lab        | 4     | 2      | 2              | 1,175  |
| UI & Feedback Lab             | 1     | 1      | 0              | 553    |

## 3. Architecture Compliance Snapshot

# Namespaces

| Namespace                                                   | Files |
|-------------------------------------------------------------|-------|
| PungentFunk.Utilities.Editor.ProjectAudit                   | 35    |

## 5. New or Materially Refactored Areas

- Developer Mode and developer-only generated theme preset authoring.
- Minimized Utilities popup and optional bottom-left tab strip.
- Documentation-link storage and popup for Design Validation Audit.
- Notes & Roadmap system and Token database/validator/linking system.
- Palette Designer panel split and Audio Coverage scanner/model split.
- Asset Placement surface brush, group repair, and path integration utilities.
- Centralized Tools/Pungent menu constants and category tint taxonomy.

## 6. Script Index
